EurOcean_AF

EUROPEAN AQUACULTURE EXPERIMENTAL AND RESEARCH FACILITIES

EurOcean_AF gathers information on aquaculture facilities, summing up (at the moment) a total of 51 facilities available for consultation.

Facilities by Country

The InfoBase covers marine aquaculture experimental and research facilities, exclusive freshwater facilities are not included.

This tool also aims to enhance communication among the different actors working in this field. The friendly-user interface and its search criteria provide the end-user with a simple and efficient mode of search.
